

On the go appointment

Bag Contents:

Wet wipes, cotton rounds

Cleanser, Moisturizer, Day/Night Solution

Oil Free Eye Makeup Remover, demo eye pencil, intense hydration cream, firming eye cream

Medium Coverage bronze 808 and ivory 100

Satin Hands

Profiles, Sales Tickets, beauty book insert and look books.

Appointment:

Apply a small amount of foundation on the back of one hand and have them rub it in. (Ivory goes on African American and bronze goes on Caucasian)

On the back of the other hand draw a line with the pencil and remove with oil free eye makeup remover. Then apply cleanser and remove with wet wipe. Follow this with applying day, night solution, moisturizer, intense hydration cream, firming eye cream and finish with the foundation you used on the other hand. Have them compare the difference. One hand will look cracked with some foundation on it. The other hand should look radiant, softer and smoother and you won't see the foundation as prominently if at all.

Close them with the beauty book insert and then finish with Satin hands.

The appointment shouldn't last longer than 15 minutes. Great to do right after work with someone and you typically can include other workers!!
